Product description

WINE AGEING & TEMPERATURE TASTING

By reproducing the conservation conditions of an underground cellar, the DIVE wine cellar gives you the opportunity to age your wines at home. Temperature,
humidity, vibrations, air renewal and light protection are concentrated in this wine cabinet. It is also able to create 3 distinct temperature zones to bring different types of wine tasting temperature.

WINE GALLERY

Sublimating wine is the DNA of the brand which has equipped the DIVA cellar with side lighting , on each side of the inner cabinet, for optimal presentation. Equipped with multi-size bottle shelves, the cellar accomodates all types of wine. The numerous compatible accessories allow the cellar to display your wines like an art gallery concentrating your finest selection.

SECURITY

Access to the wine collection is protected from the outside by a lock. A winter system prevents bottles from freezing during the winter.
